Experience

Five Pack Creative

[Remote](#)

IOS DEVELOPER

January 2022 - May 2023

- Designed and developed SwiftUI components that enriched the user interface and improved the user experience of various iOS applications, producing a more engaging and modern design
- Demonstrated adaptability and a strong learning mindset by acquiring proficiency in Flutter and Dart, broadening my skill set to contribute effectively to both iOS and cross-platform mobile app development
- Contributed to the implementation of new features, bug fixes, and optimizations, actively participating in code reviews and testing to improve app performance and functionality

TeraThought

[Remote](#)

IOS DEVELOPER INTERN

July 2020 - October 2021

- Collaborated with various teams to enhance and maintain existing iOS applications, ensuring consistent and high-quality user experiences
- Leveraged HealthKit and integrated Google Maps functionality into different apps, enhancing their capabilities and providing users with valuable features related to health and location-based services
- Worked closely with the development team to refactor existing codebases to follow the Model-View-ViewModel (MVVM) architectural pattern, resulting in cleaner and more maintainable code

Projects

Shopping App

[HTTPS://GITHUB.COM/SOPHIACG/SHOPPING-APP](https://github.com/SophiaCG/shopping-app)

- Developed a responsive e-commerce website using React, HTML/CSS, JavaScript, and Node.js, offering an engaging shopping interface
- Integrated MongoDB to manage fake product data, creating a realistic shopping experience with dynamic product listings
- Enhanced user interaction with features like product browsing, search, and a functional shopping cart system, utilizing React's modular structure for easy scalability

Movies App

[HTTPS://GITHUB.COM/SOPHIACG/MOVIES-APP-DOTNET](https://github.com/SophiaCG/movies-app-dotnet)

- Developed a dynamic website utilizing C#, HTML, and CSS to showcase popular movies fetched from a public API
- Implemented functionality to enable users to save preferred movies to local storage, resulting in the creation of a personalized watchlist feature
- Leveraged ASP.NET MVC's robust features for handling server-side logic and processing API requests, ensuring smooth data retrieval and display for end-users

News App

[HTTPS://GITHUB.COM/SOPHIACG/NEWSAPPRN](https://github.com/SophiaCG/news-app-rn)

- Developed a cross-platform mobile app with React Native, ensuring an intuitive UI and seamless user experience
- Integrated the News API to dynamically fetch and display real-time news content within the app, ensuring up-to-date information for users
- Implemented SQLite database functionality within the React Native app, allowing users to save their preferred news articles for offline viewing

Education

University of North Florida

[Jacksonville, Florida](#)

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

2017 - 2021

GPA: 3.40 / 4.0

Skills

Languages Swift, JavaScript, HTML5/CSS, SQL, C#, Java, Dart, Python, C

Development Tools Xcode, VS Code, Visual Studio, Git/GitHub, Eclipse

Frameworks/Libraries SwiftUI, UIKit, React, React Native, ASP.NET MVC, Node.js, Bootstrap, MongoDB, Flutter, Core Data, Firebase, Unit Testing
